

**Job Title:** TSMO TRAFFIC SIGNAL QC MANAGER (FDOT) (FMS/AMS Specialist)

**Position Scope/Objectives:**

The TSMO Traffic Signal QC Manager supports new traffic signal construction as well as local agencies with their maintenance responsibilities. The QC Manager coordinates with maintaining agencies on their equipment/troubleshooting needs, handles all new signal turn-ons, reviews plans/permits, and maintains the TSMCA Exhibit A for all maintaining agencies. The QC Manager also oversees the District's Traffic Operations asset inventory.

**Primary Duties and Responsibilities**

- Coordinating with maintaining agencies on their equipment/assistance needs
- Facilitate new signal turn-ons
- Track all signals through various programs
- Evaluate plans in ERC
- Review permits
- Handle inventory in signal warehouse, including ordering necessary equipment
- Keep track of TSMCA Exhibit A
